

Vasili Bologov

Position	Senior Python Engineer
Location	Chişinău, Moldova
Email	vasiliybologov@gmail.com
Phone	+373 (78) 228638

Summary

Highly motivated Senior Python Engineer with over 10 years of experience in architecting and implementing scalable backend services and distributed systems. Expert in **Python** (Django, Flask, FastAPI) and **Go**, with deep expertise in **System Design**, **Relational Databases (PostgreSQL, MySQL)**, and **NoSQL (MongoDB Expert)**. Significant experience in building high-load microservices, AI integration (LLMs, OpenAI), and containerized applications using **Docker**. Strong interest in fullstack development with exposure to **React**. Proven track record in code reviews, technical leadership, and continuous improvement of system maintainability and reliability.

Core Technologies & Expertise

Back-end: Python (Expert), Django, Flask, FastAPI, SQLAlchemy, Tornado, Golang. **Databases & Data:** PostgreSQL, MySQL, MongoDB (Expert), CosmosDB, ElasticSearch, Redis, Vector Search (kNN). **Infrastructure & DevOps:** Docker, Kubernetes, GitLab CI, Azure / AzureDevOps, Linux, Nginx. **Architecture:** Microservices, System Design, REST, gRPC, GraphQL, RabbitMQ. **Frontend:** React, TypeScript, JS, HTML/CSS.

Additional Skills & Experience:

Mobile & Systems: Kotlin (Android), Swift (iOS), .NET Framework (C#), Java, C++. **Specialized:** Automation (Selenium), SonarQube, LLM Integration (OpenAI API), Blockchain Security. **Tools:** Jira, GitLab, GitHub.

Languages

- **English:** B2 (Upper Intermediate) - Very good command (written and spoken)
- **Russian:** Native

- Romanian: B1 (Intermediate)

Work Experiences

Organization:	Simpals SRL
Position:	Senior Backend Developer
Activity in organizations:	System Modernization & Design: Led the continuous improvement of system design for the 999.md ecosystem, ensuring long-term maintainability and scalability.
	Python & Go Development: Developed and maintained backend services using Python and Go. Led the migration of high-load legacy Python services to Golang while maintaining system reliability.
	Vector Search & AI: Implemented high-performance Vector Search using kNN and freshness rescoring. Integrated OpenAI Embeddings for semantic search capabilities.
	Moderation Systems: Developed advanced automated moderation and spam detection engines using complex pattern matching and Unicode normalization.
	Mentorship: Participated in regular peer reviews and coaching, fostering a collaborative team environment.
Period:	May 2023 - present time

Organization:	Simpals SRL
Position:	Software Developer
Activity in organizations:	Full-stack development of web applications from scratch to MVP.
	Support and development for major products: 999.md, business.999.md, and Marketplace.
	Experience with containerized applications using Docker and CI/CD pipelines in GitLab.
Period:	January 2022 - May 2023

Organization:	Giter Parfum
Position:	CTO and Head of Development

Organization:	Giter Parfum
Activity in organizations:	Cloud migration strategy and implementation.
	Managing a development team, overseeing system support and new feature development.
	Full stack software development (Python/JS).
Period:	January 2021 - present time

Organization:	Amdaris SRL
Position:	Software Developer
Activity in organizations:	Python Development: Focused on backend services using Python and related frameworks.
	Technical leadership on various projects, monitoring development sequences and structuring internal processes.
	Full stack development including .NET and JS/TS (React/Angular).
	Participation in ML algorithm development for internal projects.
Period:	June 2020 - December 2021

Organization:	XOR.AI
Position:	Senior Software Developer
Activity in organizations:	Software development for AI-driven platforms. Focusing on Python backend services and AI integration support.
Period:	November 2019 - June 2020

Organization:	XOR.AI
Position:	Team Lead / Developer
Activity in organizations:	Development and support of email deliverability systems using Python.
	Leading a team of junior developers, conducting code reviews and mentoring.
Period:	June 2019 - November 2019

Organization:	Luxury Air Travel LLC
Position:	CTO
Activity in organizations:	Leading a team of 10 people in building an Applicant Tracking System (ATS).
	CRM support and overall system stability management.
Period:	March 2018 - June 2020

Conferences & Speeches

Theme	Event	Year
AI Agents in Action	AI Seminar, Chisinau	2025
Pandora’s Box: AI in Software Development	Sigmoid Workshop, Chisinau	2025
Future Developer: AI-Augmented Workforce	Moldova DevCon 2024	2024
Managing Technical Debt & Modernization	IT Career Expo 2023	2023
AI in Python	Moldova Python MeetUp	2020

Education:

- **Incomplete higher education:**
 - Branch of Moscow State Technical University N.E. Bauman (BMSTU), Kaluga (2009 - 2015) - Computer Science.
 - Tula State University, Tula (2015 - 2016) - Informatics.

Certificates:

- **MongoDB Certified:** M001 (Basics), M103 (Admin), M121 (Aggregation), M220P (Python Developer), M201 (Performance), M320 (Data Modeling).
- **English:** EF SET Certificate Level B2 (Upper Intermediate).
- **Other:** Romanian Level B1, Team Leadership, Soft Skills, Business Time Management.

[Full list of certificates and digital copies are available in the repository assets.]
